"BUILD ON A FOUNDATION OF ICE"

Melissa and Denis are World renowned, top-ranked figure skating athletes. They are US National Medalists, International Event Champions; and they represented the United States in the 2006 Winter Olympics in Torino, Italy. They toured as "Champions on Ice" performers; and are currently performing internationally. They choreographed the routine for 2008 World Bronze Medalist, and the Professional Skating Association recognized them as 2007 Best Performers.

Internationally top-ranked figure skaters, Melissa Gregory and Denis Petukhov, have created a unique instructional ice skating program, “Olympic Fever on Ice”, that is now being offered to you. This five week program offers young skaters of all levels an opportunity to learn and improve skating skills under their guidance. In addition, we focus on using the sport of ice skating as a tool to develop and strengthen students’ life skills such as physical fitness, leadership, teamwork, fair play, self-esteem, communication, commitment, and respect. It is the goal of the program that these meaningful and important skills, built on “a foundation of ice” will stay with students into adulthood.

“We feel strongly that ice skating has given us many skills for success; and we are very excited to be able to offer students the chance to experience positive physical and emotional growth in a safe and supportive environment. We feel that this is a perfect way for us to give to the community through the sport that has taught us such valuable life lessons.”
